<b>CATCH CERTIFICATION UNDER IUU FISHING CONTROLS</b>	
<i><b>NOTE:</b> The following charges are applied on a per consignment, per country basis. A consignment will be determined as goods covered by a distinct set of documentation e.g. where there is more than one processing statement in the IUU documentation (particularly where it pairs with a CHED-P), it is likely to be processed and charged separately.</i>	
<i>The appropriate checking fee of £27.88 or £55.14 is applied for each country that certification is received from. In addition where multiple certificates are submitted to accompany a consignment a sliding scale of charges will be applied.</i>	
For low-risk consignments per flag state country.	
Imports coming directly from the following flag states are currently defined as low risk:	
- EU direct imports	£27.88
- EEA/EFTA country (Norway, Iceland, Faroe Islands)	
- Country with a bilateral agreement with the EU for IUU purposes (USA, Canada, New Zealand), e.g. fish caught by a US fishing vessel and processed in a US approved establishment	
For high-risk consignments per flag state country.	
The following imports are currently defined as high risk:	
- Fish caught by other third country fishing vessels	£55.14
- Fish from EU/bilateral/EEA/EFTA countries that have been processed in a third country (indirectly imported), e.g. fish caught by a US fishing vessel and processed in a Vietnamese approved establishment. (Fish caught by a vessel registered to an EU/EFTA/bilateral country and subsequently processed in another third country loses its low risk status and is charged at the higher rate)	
<b>Number of certificates</b>

<b>WATER SAMPLING ON VESSELS</b>	
<b>Standard Drinking Water Parameters – drinking water sampling for Coliforms, E.coli, and Enterococci are carried out on request</b>	
<i><b>NOTE:</b> It is recommended that three samples are taken at different points in vessels' fresh water distribution systems. ** Fees subject to change, pending UKHSA published rates for 2023/24.</i>	
Analytical testing using the standard drinking water parameters is charged for the first sample	£104.36
Each additional sample	£52.18
<b>Legionella testing</b>	
<i><b>NOTE:</b> A single sample can only provide information as to the presence of legionella at an individual point on the ships water system. Therefore due to the nature of this organism and the associated risk one sample cannot provide assurances as to the legionella status of the vessels water distribution systems. A survey consisting of numerous samples taking into account the vessel size, nature and layout of the water distribution systems would be needed to give an indication of a vessel's overall legionella status. Further advice and information can be provided on this if required. ** Fees subject to change, pending UKHSA published rates for 2023/24.</i>
